

ABHAY KHANDELWAL

QA Engineer

Alwar, Rajasthan • 7597745125 • abhaayk30@gmail.com

SUMMARY

QA Engineer with 3+ years of experience in Manual and Functional Testing across POS, mobile (Android/iOS), and web applications. Skilled in test case design, defect lifecycle management using Jira, API testing with Postman, and Regression & UAT testing. Experienced testing across iPad, Android, iPhone, and Web platforms, executing 500-700 test cases per release cycle. Strong understanding of Agile/Scrum methodology, SDLC/STLC, and cross-platform quality assurance processes.

TECHNICAL SKILLS

- Testing Types: Manual Testing, Functional, Regression, Smoke, Sanity, UI, UAT, Cross-browser & Cross-device Testing, Mobile Testing (Android/iOS)
- Tools: Jira, Postman, Confluence, Trello, Selenium (training exposure)
- Database: SQL, MySQL (query-based test data validation)
- Methodologies: Agile, Scrum, SDLC, STLC, Defect Life Cycle Management
- Other: API Testing, Test Case & Test Scenario Design, Verification & Validation

WORK EXPERIENCE

QA Engineer, Radicalrack Technologies

Jan 2024 - Present

- Executed 500-700 test cases per release cycle across POS, KIOSK, KDS, Android, iPad, iPhone, and Web applications, ensuring consistent quality across platforms.
- Logged and tracked 40-50 defects per month in Jira, coordinating closely with developers to improve average defect resolution time.
- Created and executed test cases/scenarios based on business requirements, covering Functional, Regression, Smoke, Sanity, UI, and UAT testing.
- Caught issues early in the QA cycle, helping reduce production defects and ensuring releases went out with very few critical bugs after UAT.
- Performed cross-platform testing across iPad, Android, iPhone, and Web, collaborating with teams using React JS, React Native, and Flutter.

Associate QA, Secure Learning Pvt. Ltd.

Nov 2021 - May 2022

- Understood project requirements and prepared test cases based on functional specifications.
- Identified and reported defects with detailed steps and screenshots to enable easy reproduction and faster fixes.
- Performed Functional and Regression Testing to verify bug fixes prior to release.
- Coordinated with developers and cross-functional team members to ensure smooth, on-time release of applications.

PROJECTS

- Fast-Food Restaurant Chain (POS/KDS System): Performed functional and regression testing across POS and Kitchen Display System (KDS) to ensure order accuracy and workflow integrity.
- Home Service Request & Tasking Management System (Web/App): Conducted functional, regression, and UAT testing to validate service request workflows and task assignment features.
- Taxi Service, Collingwood, Australia (App): Performed functional and cross-device testing across mobile platforms to validate booking and dispatch workflows.
- Healthcare Monitoring App (Mobile - React Native): Tested a cross-platform healthcare app for real-time health monitoring via Bluetooth-enabled devices, validating live data charts (Skia, Victory Native), role-based access, and performance stability.

EDUCATION

Master of Computer Application (MCA) 2019 - 2021

Jaipur National University

Bachelor's in Computer Application (BCA) 2017 - 2019

Singhania University

CERTIFICATIONS

- Manual and Automation Testing — Jan 2023 to July 2023
